

R. K. Godfrey Herbarium, Florida State University (Fall 2009)

Address: BIO Unit 1, room 100, Dept. of Biological Science, Florida State University, Tallahassee, FL 32306

Contacts

Dr. Austin Mast

Title: Director

Email: amast@bio.fsu.edu

Phone: 850-645-1500

Hours per week: 10-15

Description:

Interns will be mounting plant specimens, databasing specimens, digitally imaging specimens (see examples of how this is used at www.herbarium.bio.fsu.edu) to assist research and natural resource management communities, as well as local students in ecology, systematics, and evolution classes. The FL Panhandle is a biotic hotspot, and we have the most extensive collection of plants from the region.

Desired Qualities:

Self-motivation, good organizational skills, an interest in the natural world.

Days and Times: Days and times are negotiable.
